

Construction Update – May 3, 2021

Pavement Milling on E. Capitol Drive from North Avenue to Maple Avenue begins **Today, May 3, 2021**. The Contractor is stripping off the top layer of asphalt roadway in preparation for sub-surface treatments and a new pavement surface to be placed later this week.

Please remember that the road is closed to “Thru Traffic” meaning that, unless you are traveling to a business or residence on E. Capitol Drive this week, we ask that you use an alternate route to reach your destination. There is NO PARKING on E. Capitol Drive until the afternoon of Friday, May 7th.

Traffic is permitted on E. Capitol Drive ONE WAY from WEST to EAST. No traffic will be permitted to enter E. Capitol Drive at Maple Avenue. A detour route is posted that takes you south to E. Park Avenue and west to Cottonwood Avenue.

Please be alert as there will be large machinery and many trucks on and around E. Capitol Drive today.

We greatly appreciate your continued patience as we work to complete this project.
